Building a Sustainable Future: The Three-Legged Stool Model

The "Three-Legged Stool" model emphasizes three key pillars of community sustainability. Like a stool, if one leg is missing, stability is lost.

The first leg that Wasatch Front Waste and Recycling focuses on is the environmental leg. We provide sustainable disposal options to our residents, including curbside recycling, green waste containers, and a separate glass recycling program.

These programs help reduce landfill waste, extend landfill life, and minimize pollution by recycling materials, composting green waste, and processing glass.

By participating in these initiatives, residents contribute to the environmental sustainability of their community!

Spring Into Green!

Spring is upon us - time to get our gardens and yards in shape! Wasatch Front Waste offers green waste bins, providing a sustainable and affordable way to dispose of your green waste.

Collected green waste is diverted from landfills, composted separately, and made available for sale through the Salt Lake County Landfill, benefiting the environment and your community!

Pickup starts March 10th, 2025, and runs through December 12th, 2025.
For a convenient green waste disposal option, visit www.wasatchfrontwaste.org to subscribe today!

Keep Recycling Clean for Maximum Impact!

Recycling gives materials a second life, saving valuable resources and reducing environmental impact. But to truly benefit from recycling, it's essential to keep it clean!

Contaminated materials like food waste, liquids, or non-recyclables must be manually removed, separated, and sent to the landfill, which increases emissions and disposal costs.

Help improve the recycling process by only including accepted items in your recycling bin. For tips on proper recycling and a list of accepted items, visit www.wasatchfrontwaste.org/how-recycle.

Place your recyclables directly into the can or in a paper bag:

Plastic Tubs, Jugs, & Bottles
*Labels and lids do not need to be removed

*Labels do not need to be removed

Tin/Steel, Aluminum, & Empty Aerosol Cans

Cardboard, Mixed Paper, Newspaper, Paper Boxes, & Paper Bags

Please do NOT place any plastic bags in your blue recycling bin.
