2018 Budget Requests and 5 Year Plans are in the works. We operate on sales taxes collected by the state and class B and C road funds. Trails and parks also get ZAP and Bond funds.

White City Crime Watch Corner

The MOST important thing YOU can do is CALL THE POLICE to report a CRIME or any SUSPICIOUS activity. Officers cannot be everywhere at all times, thus it is important you help by being their eyes and ears. **IMPORTANT NOTE** - you can always remain a pair of anonymous eyes and ears.

Light up your residence, **lock** your doors at all times and call the Police when you see something suspicious, something that doesn't look right or doesn't feel right.

Some crime prevention tips for a safe summer:

- Lock all outside doors and windows before going away even for a short time.
- If you are going to be away for a length of time, connect some lamps to automatic timers to turn on in the evening and off during the day. Make your home appear to be occupied.
- Keep your garage door closed at all times.
- Secure your expensive items ie grills, lawn mowers and bicycles by storing them out of sight.
- Remember to cancel your mail and/or paper delivery if going on vacation.
- Always lock your garden sheds and garages.
- Secure your car, NEVER leave anything of value in plain view.
- Make sure shrubbery/trees around your entrances or dark areas of your home are kept trimmed.
- Motion sensors around your home are a great deterrent for unwanted guests.
- If you have a home alarm system, USE IT! Activate your alarm.
- Most importantly, know your neighbors and surroundings.

****To report a crime or suspicious activity/persons/vehicles and it does not require immediate response, you can call UPD dispatch at #801-743-7000. If you have questions or concerns you can also email me at pstinson@updsl.org.**

STAY SAFE AND ENJOY YOUR SUMMER!!

Det. Paula Stinson Midvale Precinct

Contact Information:

Detective Paula Stinson is the Community Oriented Policing Officer assigned to the Southeast Communities. Detective Stinson would be happy to answer any questions citizens may have regarding upcoming events, crime prevention tips, or any other law enforcement related issues. She can be reached by e-mail at pstinson@updsl.org or by telephone at 801-576-1445.

For all emergencies, call 9-1-1

Pet Services for White City Residents Salt Lake County Animal Services

Salt Lake County Animal Services wants to make sure YOU, the residents of White City, know about the great services we offer.

Not only do we offer animal control services, pet licensing, and pet adoptions, but we also offer special discounted services to citizens in our jurisdictions.

As a citizen of White City, you are eligible for these FREE services for your pet:

- **All** licensed dogs can receive a FREE microchip and a FREE DHPP vaccine.
- **All** licensed cats can receive a FREE microchip and FREE FVRCP vaccine.
- **FREE** rabies clinics are held twice a month and are by appointment only.
Call 385-468-6052 or email animal@slco.org.
- **FREE** spay/neuter clinics are available throughout the year and most are sponsored by our non-profit partner, Utah FACES. Please check with us to see when the next clinic is available on our website, **Facebook** page, or email animal@slco.org.
- **Seniors to Seniors:** If you're over the age of 55, you are eligible to adopt any animal over the age of 5 for FREE.

We also offer free outreach programs and Humane Education for schools, youth groups, and community groups. If you would like to learn more about any of these programs or are interested in volunteering, please visit our website at www.adoptutahpets.com, call us at 385-468-7387, or visit us at the shelter at 511 West 3900 South.

Pet Lost and Found

[Lost Pet](#)
[Found Pet](#)

Are You Missing Your Pet?

Click the link below to see photos of animals that are currently in our shelter. We try to photograph every animal, but occasionally we cannot get a photo, such as if an animal is injured or aggressive. We also maintain a list of all the animals that were picked up deceased. If you are missing your pet, the only way to guarantee that your pet is not here is to visit the shelter in person as soon as possible!

[Search through our animals for your pet](#)

My Pet was Picked up by Animal Control. How do I retrieve it?

Animals impounded will be redeemed to a person over 18 who can provide proof of identification and animal ownership. Redemption fees will apply; we accept cash, credit cards, and checks. Please note that we cannot quote fees over the phone. Please bring current, valid photo identification and one or more of the following to prove ownership:

- Location and date when pet was last seen;
- Age and sex of the animal;
- Current photos of the pet;
- Veterinary records for the pet, including proof of vaccinations and proof of sterilization;
- Microchip information

What Should I Do If My Pet Is Missing?

DON'T EVER ASSUME that your pet was stolen or will come back on its own.

VISIT local animal shelters within 24 hours of losing your pet.

ASK to check the **ISOLATION** and **QUARANTINE** kennels when visiting shelters. Also ask about any animal that may have been picked up deceased.

POST lost pet cards or flyers on lost and found boards at local shelters, veterinary clinics, and other public bulletin boards when available. Post to [Utah Lost and Found Pets on Facebook](#).

LOOK for your pet during the day **AND AT NIGHT**.

CALL nearby veterinary offices to see if your pet was brought in as an injured stray.

PLACE lost pet ads in local papers and classified sections of websites under the lost & found columns, such as [KSL](#) and/or [Craigslist](#).

CHECK all the [shelters in the area](#). Your pet could end up at any one of them.

DON'T GIVE UP! Often a pet will not arrive in a shelter for weeks and sometimes even months after first becoming lost. Keep ID tags current and microchip your pet!

The White City Community Council which is recognized by our Metro Township by ordinance is in need of volunteers to fill a few vacancies. It is the grass roots of our community. It has fund raised, worked on fairs, bought a water company, lobbied on Capitol Hill, and donated thousands of hours to the betterment of our community. Please consider building a better future as a volunteer.

You are the future!

Transportation Corner:

Learn How Majority of Roads Get Funded

WFRC Releases Program Identifying Billions in Transportation Investment

The Wasatch Front Regional Council (WFRC) invites you to comment on the [Draft 2018-2023 Transportation Improvement Program](#) (TIP). Totalling more than \$5 billion in vital transportation funding, the TIP identifies balanced investments in road, transit, bike, and pedestrian infrastructure that are needed in Salt Lake, Davis, Weber, Tooele, Morgan, and Box Elder counties.

In close collaboration with the Utah Department of Transportation (UDOT), the Utah Transit Authority (UTA), and cities and counties across the Wasatch Front, the TIP is updated every year and identifies federal, state, and local funding for projects over the next six years. Learn more and comment via WFRC's [online interactive map](#).

Representatives will be available to answer questions about the TIP projects via two in-person open houses held on Tuesday, July 18 at the Ogden Intermodal Center at 2350 Wall Avenue in Ogden and Thursday, July 20 at the Salt Lake Central Station at 250 South 600 West in Salt Lake City. Both events will run from 4:30 pm to 7:00 pm.

Portions of the open houses will be streamed live via WFRC's [Facebook](#) account.

The Transportation Improvement Program (TIP) is a six-year program of highway, transit, and active transportation projects for the Salt Lake City-West Valley City and Ogden-Layton urbanized areas. Funding comes from various federal, state, and local sources dedicated to transportation. The program implements state and local road, transit, bike, and pedestrian projects identified in the WFRC Regional Transportation Plan and other plans. WFRC works with local governments, the Utah Department of Transportation, and the Utah Transit Authority to develop the TIP. Public input is sought each year on projects proposed for inclusion in the program.

For a complete list of projects and corresponding air quality conformity memorandum or to learn more, please view the [Draft 2018 - 2023 TIP Project Table Listing and Air Quality Conformity Memorandum #36A](#).

To comment on the proposed projects, please view the [Draft 2018 - 2023 TIP Interactive Map](#) and provide comments via the public comment layer. Public comment on the Draft 2018-2023 TIP runs through Saturday, August 5.

Representatives will be available to answer questions about the TIP projects via two **in-person open houses** held on Tuesday, July 18 at the Ogden Intermodal Center at 2350 Wall Avenue in Ogden and Thursday, July 20 at the Salt Lake Central Station at 250 South 600 West in Salt Lake City. Both events will run from 4:30 pm to 7:00 pm. **Portions of the open houses will be streamed live via WFRC's [Facebook](#) account.**

The TIP helps to meet the region's transportation needs and provide for the operation and maintenance of the existing transportation system. WFRC is responsible for selecting projects in the TIP that receive funding from three federal

funding programs - 1) the Urban Surface Transportation Program (STP), 2) the Congestion Mitigation Air Quality Program (CMAQ), and 3) the Transportation Alternatives Program (TAP).

Click on the links below for more information regarding how to apply for funding through these three programs.

Surface Transportation Program (STP)

- ❖ Summer provides a great time to participate in a variety of outdoor activities. Unwelcome mosquitoes, however, can make many outdoor activities less enjoyable. Familiarity with basic mosquito biology and some simple precautions can help reduce the negative impacts of mosquitoes.
- ❖ Mosquitoes complete the early stages of their life cycle in stagnant water in places ranging from ponds, marshy areas, and irrigated pasture-lands, to gutters, cavities in trees, and bird baths. During the summer, nearly any water left standing for at least one week can provide suitable conditions for larval mosquitoes to develop into adults.
- ❖ Adult female mosquitoes take blood meals from vertebrate hosts to obtain protein required for egg production. In addition to causing an irritating allergic reaction, mosquito bites can facilitate disease transmission. West Nile virus is an example of a disease transmitted by mosquitoes in the Salt Lake Valley.
- ❖ You can help control the population of mosquitoes by:
- ❖ Eliminating unnecessary standing water from your property.
- ❖ Emptying and refreshing desirable standing water at least weekly.
- ❖ Treating livestock watering troughs and ornamental ponds with mosquito control products or fish (this service is available free of charge from the SSLVMAD).
- ❖ Reporting other standing water to the SSLVMAD.
- ❖ Additionally, the following suggestions can help you avoid being bitten by mosquitoes:
- ❖ Use mosquito repellents approved by the Environmental Protection Agency according to instructions on the product label.

- ❖ Wear light-colored, loose-fitting clothing that covers as much skin as possible when outdoors.
- ❖ Avoid outdoor activities during times of peak mosquito activity (between dusk and dawn for several species of mosquitoes including disease vectors known to occur in Utah).
- ❖ For additional information about mosquitoes and mosquito control or to submit a request for service please visit www.sslvmad.org. Additional information about Zika virus and other mosquito-borne diseases can be obtained from the Salt Lake County Health Department, or Centers for Disease Control and Prevention.
- ❖ Mosquitoes require standing water to complete the early stages of their life-cycle. Mosquito larvae develop in water for several days to a few weeks before emerging as adults. You can help control the mosquito population by interrupting the life-cycle through eliminating unnecessary standing water and ensuring that desirable standing water is treated with mosquito control products. For more information about mosquitoes and mosquito control please visit www.sslvmad.org.
- ❖ There are around 3,500 mosquito species in the world. About 25 of those species have been observed in Salt Lake County. Different species present different levels of nuisance capacity and health risk to humans. Currently, the primary health risk from mosquitoes in Salt Lake County is West Nile virus. Mosquito species capable of transmitting this disease are most active from dusk to dawn. Aggressive, day-biting mosquito species in Salt Lake County can be a nuisance, but are not known to transmit disease to humans. Please visit www.sslvmad.org for more information about mosquitoes in this area

White Towers Swimming Pool

998 East Larkspur Drive
 (10384 South)
 Sandy, UT 84094
 (801)572-DUNK

Established in 1961, White Towers used to be a member-only pool. However after many years of serving only White City, the pool opened up to the public to serve the whole community. We are a family-oriented facility which is run by a board and members. But we are always open to suggestions from anyone. All of our profits go directly to the pool. Because of this, our staff,(from snack bar workers to maintenance) are all volunteers.

We love them!

We really do appreciate everyone who supports the pool. We go through everything we do to stay open because we know what summer is all about and that's having fun at the pool. So come on down! We hope to see you there!

Because we've been having fun since '61!

Open Swim Hours:

Memorial Day thru Labor Day

Monday - Thursday	12:00 PM to 8:00 PM
Mon / Family Night	8:00 PM to 10:00 PM
Tues / Teen Night	8:00 PM to 10:00 PM
Friday - Saturday	12:00 PM to 6:00 PM
Sunday	Available upon request

Family Night: For any of those families who just need a night out. Open to all!

Teen Night: For those teenagers who want to enjoy the pool, without mom/dad or little siblings tagging along. Open to those 14 - 18 years of age.

**Family Night and Teen Night require regular admission to get in if you haven't paid earlier in the day.

Membership: includes extended family up to 20 people, each additional person is \$5 for the entire summer (immediate family, their spouses, grandchildren, etc.)

\$225- voting rights, and **10 hrs** a month snack bar obligation

Family Pass: up to eight (8) immediate family members living in one household, **no** extended family

\$300 - Summer (\$200 after July 1st, \$100 after August 1st)

\$100 - Monthly

\$ 45 - Weekly

Individual Pass:

\$ 90 - Summer

Daily Admission:

\$ 4 - All ages

*admission is free for those not swimming

\$200* - FACILITY RENTAL (available after hours and on Sunday); PRIVATE 2-hr use of the pool, pavilion (enclosed), and BBQ grills; POOL ADMISSION fees are waived, \$75 for each additional hour; FOR MORE than 30 guests swimming there is an additional charge of \$4 per extra swimmer; A LIFE GUARD IS AVAILABLE FOR AN ADDITIONAL FEE.

*There is a \$50 refundable deposit for any damages/clean-up

Greater Salt Lake Municipal Services District

What is the Municipal Services District?

The Municipal Services District (MSD) manages the revenue and the budget paying for delivery of municipal services for the metro townships and unincorporated areas of Salt Lake County.

Municipal services are services often managed by cities, such as road maintenance and street lights, storm drains, and snow removal. [See a complete list of the municipal services Salt Lake County currently provides.](#)

See Chart of Structure below:

GSLMSD SERVICES.

A. The District shall provide Services, as described below and may provide other related Services pursuant to statute and other laws and based on the rules, regulations and policies adopted by the Board. Specific Services which may be provided by the District are as follows:

- i. Road and Street Construction and Maintenance, to specifically include design, construction, repair, curb, gutter, sidewalk, street lighting, traffic control lights and signage, striping, snow removal, and local storm drain

construction and maintenance;

- ii. Animal Control Services;
- iii. Business and Land Use Development, to specifically include economic development and planning and zoning staff services to various planning commissions, and shall also include business licensing, building inspection, and code violation enforcement; and
- iv. Municipal Parks, to specifically include maintenance of local or neighborhood parks, as currently defined by the County.

Cutting Away

Children are crawling all over Reed Tyler's thesis for his master's degree. It's a granite bear that he's chiseling- in the park site at White City. The bear weighs 4 1/2 tons, stands six feet seven

inches tan, and isn't finished yet.

So far Mr. Tyler an art teacher at Churchill Junior High has worked about 1,000 hours on the bear. It counts as his master's thesis.

Children at the park often climb up on the bear's head and jump off its nose, causing some consternation:

If that nose broke off, it might hurt Mr. Tyler's grades.

###

County Gets Gift Thesis'

10A Deseret News , Wednesday June 1, 1966

What do you do when children climb all over your master's thesis?

If you're like Reed Tyler, 9710 Amber Ln, Sandy, you won't care Just hope they won't fall off and get hurt.

Mr. Tyler is working on a master's degree in sculpting and painting at the Brigham Young University. He always wanted to do something big.

A bear seemed like just the thing to sculpture as part of his thesis. An 11-ton piece of granite rock was purchased for about \$500 and placed at the Wilford H. Hansen Stone Quarries, 8809 S. 600 West, Sandy.

An air driven chisel was first used to chip out the bear's outline. Then a 4-pound hammer.....Rest of story not legible!

Sandy Student is Really Chiseling Out His Degree

The Midvale Sentinel

Friday, August 20, 1965

At the completion of the work, Tyler hopes to place the sculpture in the new White City Park.

the finished bear will weigh somewhere between 11 and six tons. What does it feel like to wield a three pound hammer for a 1000 hours.....It's not too bad until I stop. and then.....missing.....Reed Tyler Sandy, using hammer and chisel putting on finishing touches on school masters thesis.....missing.....

Working on a masters degree at Brigham Young University.

White City's Legacy is the people who have made this community their home. "So many stories to tell."

As I was walking one day, a man spoke to me about some of the stories in the beginning of the development of our neighborhood. He said Kennecott would offer loans to their workers so they could afford to buy homes here. We have a strong and deep history. The children of our families are moving back to where they grew up. We are steeped in a strong hard working community. People join forces to create wonderful things.

If you find a story to tell, please let us know so we can honor their memories. Contact me and we will build the history of White City

We want to welcome our new Fire Chief for the United Fire Authority.

On Friday, March 3rd, Chief Dan Petersen officially got sworn into office. Chief Petersen came to us from Medford Oregon.

His Career Highlights include:

Jackson County Fire District 3 Fire

Chief/CEO/Budget Officer

City of Medford Fire department, Deputy Chief of Administration/Training and EMS Chief

Valley Fire Service, Captain, Engineer, Firefighter

1st Vice President of the Oregon Fire Chiefs Association

He holds a Masters Degree in Management, a Bachelors Degree in Fire Administration, an Associates Degree in Fire Science and is a graduate from the National Fire Academy Executive Fire Officer Program.

He becomes our 13th fire chief for the organization and the 3rd chief for the Unified Fire Authority.

Fond Farewell to Sheriff Jim Winder

You have been family to White City. We will miss you very much. When you arrived on our scene, we were the lost sheep in county law enforcement. Cottonwood Heights was doing everything to put us under. They told us we had no policing. Even called me at work to say so (Russo and the former city manager). Our community was put at risk because of their politics.

You brought real law enforcement to White City. No matter how big or small, you gave service to all. Thank you for all your hard work. We have been blessed with a real friend. Please know we will never forget. We understand that too much politics has entered this valley. It comes at a cost to every citizen in this valley. You took the bull by the horns and served us.

Take care of yourself and family.

Sincerely,
White City Metro Township
2017
